Rosenthal meets Versace - Euphoria

Rosenthal meets Versace Euphoria

Rosenthal meets Versace welcomes its newest addition – the limited edition Euphoria vases, sophisticatedly crafted from the finest porcelain. Inspired by the idea of a rotating mythical Medusa head, each of the vases represents a different pace of movement: slow – in which the Gorgon's facial features are more prominent, fast – accentuating her snake-like hair and the fastest – with horizontal lines that emulate accelerated motion.

The vases are available in white and gold as a three piece set as well as for the slowest rotating Medusa head on a single basis, also in white and Gold. As part of a special, limited edition series, every vase has a limited-edition number marked on the bottom. The vases are also available in formation as an unique object.

From Porcelain Pioneer to International Design Company

Founded in 1879, Rosenthal reflects on its longstanding company history. The story of Rosenthal is the story of a father and son – founder Philipp Rosenthal Senior and the visionary entrepreneur Philip Rosenthal Junior. The former laid the foundation for modern porcelain production, while the latter built Rosenthal into a renowned international brand. His credo: a passion for everyday luxury and a heartfelt commitment to design. For well over a century, established designers, artists, and trendy newcomers have crafted elegant, high-quality tableware collections and exclusive pieces that enhance living spaces. Rosenthal's clientele includes not only households worldwide but also 800 international restaurants and hotels. Rosenthal is already on the path of green transformation and established the "Corporate Sustainability" unit in 2022. The company actively addresses sustainability in environmental

and energy management and social responsibility. The Rosenthal portfolio features the Rosenthal, Hutschenreuther, and Thomas brands, along with collaborations such as Rosenthal meets Versace and Swarovski x Rosenthal. Since July 2009, Rosenthal has been part of the Italian Arcturus Group.
