## Rosenthal - Mini Vases

### Minivases

You can never have enough vases. When these vases feature outstandingly beautiful shapes, there are virtually no limits to a person's passion for collecting them. So it's good to know that Rosenthal's most popular vases are also available in miniature. These beautiful items are available in Surface, Flux, Plissée, Arcus, Falda, Ode, Geode, Squall, Fondale, Hot Spots, Fast, Tütenvase and Vase of Phases designs. It's hard to believe that some of them have already been around for decades. The fact that these designs are still keeping with the times is thanks to brilliant designers such as Tapio Wirkkala, Marcello Morandini and Sebastian Herkner.

### From Porcelain Pioneer to International Design Company

Founded in 1879, Rosenthal reflects on its longstanding company history. The story of Rosenthal is the story of a father and son – founder Philipp Rosenthal Senior and the visionary entrepreneur Philip Rosenthal Junior. The former laid the foundation for modern porcelain production, while the latter built Rosenthal into a renowned international brand. His credo: a passion for everyday luxury and a heartfelt commitment to design. For well over a century, established designers, artists, and trendy newcomers have crafted elegant, high-quality tableware collections and exclusive pieces that enhance living spaces. Rosenthal's clientele includes not only households worldwide but also 800 international restaurants and hotels. Rosenthal is already on the path of green transformation and established the "Corporate Sustainability" unit in 2022. The company actively addresses sustainability in environmental and energy management and social responsibility. The Rosenthal portfolio features the Rosenthal, Hutschenreuther, and Thomas brands, along with collaborations such as Rosenthal meets Versace and Swarovski x Rosenthal.

Since July 2009, Rosenthal has been part of the Italian Arcturus Group.
