## Rosenthal - Seven

### Rosenthal Vase "Seven"/Design: Jan Padrnos

As a glamorous highlight, with **Seven** Jan Padrnos is once again creating an avant-garde vase collection for Rosenthal. Following the flowing design of **Triu**, which fuses three U-shaped arms, the new series is composed of seven glass tubes. The individual parts made of borosilicate glass, which are artistically joined together in opposite directions, appear like a metal work of art thanks to fine titanization. The vases are each available in gold, copper, silver, clear or clear contour.

The Czech designer **Jan Padrnos (\*1967)** started his career in the fields of mechanical engineering and architecture before focusing on product design. In 2000, he founded Blackbox s.r.o., an exclusive manufacturer for his designs ranging from furniture and glass giftware to interior projects. His designs are showcased in a number of institutions including the Prague Museum of Art and Industry, the Moravian Gallery in Brno and the National Technical Museum in Prague.
