Sambonet Kids - Gio Ponti Conca

The perfect cutlery shape, this is how Gio Ponti described his design in 1951. The rationalism that distinguishes all his works is also present in the development of the collection Sambonet Conca. Through a careful anthropological study, the Milanese architect had in fact developed a precise design for each piece, according to his theory that functionality and human habits determine the shape of everyday objects.

The symmetry, rational functionality and elegance of a masterpiece of design, united in a Gio Ponti Conca children's cutlery set and available in stainless steel, PVD gold, copper, champagne or silver plated. These sets include a spoon, fork, knife and teaspoon. Perfect as a wedding gift and gift idea for the little ones.
