Sambonet - Mix & Play

Sambonet Mix & Play

Mix&Play, new, original dessert fork and moka coffee spoon sets plus sets with a multi-colour cake server in the name of creativity on the table. Sambonet reinterprets its bestsellers – Taste, Frame and Linear – to offer new ambiances when you serve dessert or enjoy a relaxing coffee break. Black, Copper, Gold, Cognac and Champagne are the nuances that join the iconic mirror stainless steel to distinguish each and every fork and each and every spoon in the same set. Upbeat and fun but perfectly refined and elegant, the Mix&Play flatware stems from Sambonet's ongoing research into the aesthetics of the modern table and from the innovation of PVD. This technique can transform the visual perception of stainless steel, making it very hard and resistant and preventing the formation of rust or oxidation. The sets are formed of 6 pieces in different colours and come in a fine box that makes them perfect as an original gift or a stylish party favour.

PVD Colours

PVD, which stands for Physical Vapour Deposition, gives the objects exceptional colours and shades. It consists of the deposition of metallic particles through vaporization in a vacuum chamber. The coating is welded on an atomic level to the flatware's stainless steel, giving the material greater hardness and resistance to rubbing and corrosion, thereby preventing the formation of rust or oxides. This is the result of a technological research, along with the endless experience in producing stainless steel that is in Sambonet's DNA.
