# Sambonet - Party Collection and Antique Finishes

## Party Collection and Antique Finishes

Christmas, a birthday, a wedding, or even a simple dinner party. These are just some occasions when people look for a unique idea that long-lasting and, moreover, remains both useful and pleasant at the same time. This is where the range of best-seller party spoons and forks comes in, with new compositions, finishes and colours. A special gift signed by Sambonet!

Party Fashion can be traced back to the most contemporary trends and fashion icons, with shaped tips that represent symbols such as tigers, butterflies, bees, beetles, dragons and snakes. Many references and suggestions are associated with animals that are native to an exotic desert, the Amazon jungle or even from the world of fantasy: strength, wisdom, determination, passion and a thousand other meanings. Symbolism and imagination that make party time even more amusing.

Alongside the Oriental and Portafortuna collections, the tips of which reference Moorish motifs and good-luck items respectively (think ladybirds and four-leaf clovers), the Party Fashion flatware comes not only in the iconic polished stainless steel but also in the new and exclusive versions, Antique, Antique PVD Copper and Antique PVD Gold, able to transform the stainless steel's perception and to give the surfaces an extremely sophisticated look.

Perfect to enjoy appetizers with friends, delicious desserts, or for a sophisticated coffee break, the teaspoons and forks sets Oriental, Portafortuna and Fashion are the perfect gift idea for other or for yourself. They have different extremities, they are available in sets of 2 and 4 spoons

or forks, packaged in a white gift box perfect to thank your guests at the end of a wonderful day, or they are in sets of 6 and 12 spoons or forks in an elegant gift box in a warm dove grey.

## **SPECIAL FINISHES**

The particular “Antique” finishing is characterized by the pleasant to touch texture and the original matt appearance of the stainless steel. This finishing is the result of an high pressure ceramics sandblasting treatment, made up of micro ceramic particles, which defines the final effect of the surfaces. This special decoration process is enhanced by the PVD - or Physical Vapour Deposition - which gives the objects exceptional colours and shades. It consists of the deposition of metallic particles through vaporisation in a vacuum chamber. The coating is welded on an atomic level to the flatware’s stainless steel, giving the material greater hardness and resistance to rubbing and corrosion, thereby preventing the formation of rust or oxides. This is the result of a technological research, along with the endless experience in producing stainless steel that is in Sambonet’s DNA.

## **From Porcelain Pioneer to International Design Company**

Founded in 1879, Rosenthal reflects on its longstanding company history. The story of Rosenthal is the story of a father and son – founder Philipp Rosenthal Senior and the visionary entrepreneur Philip Rosenthal Junior. The former laid the foundation for modern porcelain production, while the latter built Rosenthal into a renowned international brand. His credo: a passion for everyday luxury and a heartfelt commitment to design. For well over a century, established designers, artists, and trendy newcomers have crafted elegant, high-quality tableware collections and exclusive pieces that enhance living spaces. Rosenthal's clientele includes not only households worldwide but also 800 international restaurants and hotels. Rosenthal is already on the path of green transformation and established the "Corporate Sustainability" unit in 2022. The company actively addresses sustainability in environmental and energy management and social responsibility. The Rosenthal portfolio features the Rosenthal, Hutschenreuther, and Thomas brands, along with collaborations such as Rosenthal meets Versace and Swarovski x Rosenthal. Since July 2009, Rosenthal has been part of the Italian Arcturus Group.
