Thomas - Clay: Earth, Sky, Rock

The new Thomas collection Clay radiates a rustic sensuality. Available in three different colour variations, Thomas Clay captivates with its functionality and the naturalness of the stoneware material, which looks like clay.

The grooved structure and the black speckles in the material give the plates and cups an authentic character in a handmade look. The reason for the speckles are small iron inclusions that melt up during firing and thus give the ceramic this special touch.

The Earth, Sky and Rock shades bring a sense of closeness to nature to the table in a trend-conscious and stylish way - whether tone on tone or individually combined.

Thomas Clay - Earth

Warm reddish brown tells of Mediterranean earth and gentle hills, it creates a feeling of security and well-being at home. The peacefulness that lies in the ceramic colour tone will soon be imitated by no one.

Thomas Clay - Sky

Dark grey-blue, like the sky before a summer storm, is the second tone in the colour spectrum of the new Thomas collection. The cool tone sets the counterpoint to the sensual earth and therefore harmonizes perfectly with it.

Thomas Clay - Rock

Neutral, but by no means boring, is the light, pebble-grey natural tone Rock.

It brings lightness to the collection and creates a balance between the strong colours Earth and Sky.
