## Thomas - Sunny Day Rose Powder

### **Pastel Power: new Thomas Sunny Day trend colour Rose Powder**

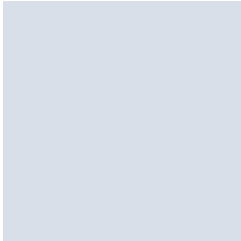

The new Sunny Day colour Rose Powder is sensitive and has a feel-good character. Thomas found inspiration for the powdery tone in pastel-coloured fashion and beauty trends. The soft rosé nuance flatters wood and other natural materials. Rose Powder adds an extra touch of warmth to delicate interiors in a nude look. The pastel shade brings the natural colour trends to the table and underlines the clear Sunny Day shape. As usual, the decor is dishwasher-safe and suitable for the microwave.

### **From Porcelain Pioneer to International Design Company**

Founded in 1879, Rosenthal reflects on its longstanding company history. The story of Rosenthal is the story of a father and son – founder Philipp Rosenthal Senior and the visionary entrepreneur Philip Rosenthal Junior. The former laid the foundation for modern porcelain production, while the latter built Rosenthal into a renowned international brand. His credo: a passion for everyday luxury and a heartfelt commitment to design. For well over a century, established designers, artists, and trendy newcomers have crafted elegant, high-quality tableware collections and exclusive pieces that enhance living spaces. Rosenthal's clientele includes not only households worldwide but also 800 international restaurants and hotels. Rosenthal is already on the path of green transformation and established the "Corporate Sustainability" unit in 2022. The company actively addresses sustainability in environmental and energy management and social responsibility. The Rosenthal portfolio features the Rosenthal, Hutschenreuther, and Thomas brands, along with collaborations such as Rosenthal meets Versace and Swarovski x Rosenthal. Since July 2009, Rosenthal has been part of the Italian Arcturus Group.
