Thomas - Sunny Day Seaside Green

Thomas Sunny Day Seaside Green

Green tones bring to mind long walks through the forest or the sounds of the ocean and represent vitality, relaxation and hope. This year, Thomas is presenting a stylish new deep shade of green as a new colour for the popular Sunny Day collection. Seaside Green has a simple yet bright and powerful effect on clean shapes. In combination with the Lime, New Red and Yellow shades, the new colour brings a pleasant freshness to our breakfast tables. As usual, the design is dishwasher-safe, impact-resistant, scratch-proof and suitable for microwave use. The trendy colour is also available for the new large Sunny mug. In total, the Sunny Day collection comprises 20 colours.

From Porcelain Pioneer to International Design Company

Founded in 1879, Rosenthal reflects on its longstanding company history. The story of Rosenthal is the story of a father and son – founder Philipp Rosenthal Senior and the visionary entrepreneur Philip Rosenthal Junior. The former laid the foundation for modern porcelain production, while the latter built Rosenthal into a renowned international brand. His credo: a passion for everyday luxury and a heartfelt commitment to design. For well over a century, established designers, artists, and trendy newcomers have crafted elegant, high-quality tableware collections and exclusive pieces that enhance living spaces. Rosenthal's clientele includes not only households worldwide but also 800 international restaurants and hotels. Rosenthal is already on the path of green transformation and established the "Corporate Sustainability" unit in 2022. The company actively addresses sustainability in environmental and energy management and social responsibility. The Rosenthal portfolio features the Rosenthal, Hutschenreuther, and Thomas brands, along with

collaborations such as Rosenthal meets Versace and Swarovski x Rosenthal. Since July 2009, Rosenthal has been part of the Italian Arcturus Group.
