A Tribute to the Iconic Medusa: Rosenthal meets Versace "Medusa Amplified"

Medusa Amplified Short Sets

These short sets pay tribute to Versace's institutional Medusa, reimagined and amplified in fresh pastel colors. The iconic head is imposingly emblazoned in green, blue, pink and orange on Rosenthal plates framed by a classic meander band in gold.

The short sets consist of various plates, cups and a cereal bowl in all four colors, namely Green Coin, Blue Coin, Pink Coin and Orange Coin, and are complemented by a coffee pot, teapot, creamer and sugar bowl as well as three vases.

Medusa Amplified Multicolor

Influenced by Donatella Versace's love of music, especially hip-hop, the Medusa Amplified prints reimagine Medusa as a music icon. The design visualizes what Medusa would feel like as a song, rhythm, melody or beat. The Rosenthal meets Versace collection plays with bold, spring-like colors, contrasts and size variations of the iconic Medusa.

With 30 colors, the extremely elaborate décor, the filigree ornamentation of the Medusa heads and the meander bands around them were a great challenge for the experienced lithographers at Rosenthal in realising the décor designs that require a great deal of knowhow and precision. The Medusa Amplified Gift collection contains three vases in different sizes, a place plate, an ash tray, a small platter and a small plate as well as the popular scented candle.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
