Be My Valentine: romantic moments with Rosenthal

Valentine's Day on 14 February is celebrated by lovers all over the world as one of the most romantic days of the year. Let our gift ideas inspire you!

Rosenthal Maria Pink Rose/Decorative design: Regula Stüdli

The shape "Maria", designed in 1916 and decorated in almost 100 years with a good 200 patterns, stands for great porcelain history and a great love. The classicist service in white was named after the wife of the company founder Philipp Rosenthal and, with more than 15 million plates sold in the last 25 years alone, is considered one of the most successful porcelain series worldwide. Today, the classic is presented with a romantic floral pattern as Maria Pink Rose. Rosé-coloured garden roses lie beautifully next to pomegranates and fresh daisies. The velvety soft petals and delicate colours radiate lightness and make you want to spend warmer days.

Rosenthal Brillance Fleurs Sauvages/Decorative design: Regula Stüdli

It almost looks as if flower children have picked fresh flowers and grasses and then dropped them, lost in dreams. In an almost supernatural naturalness, the flower dreams of the Swiss designer Regula Stüdli in Fleurs Sauvages décor thrive in a surreal garden. The fantastic floral arrangements form a delightful contrast to the functional elegance of the Brillance form. And they make a beautiful Valentine's Day gift that does not fade.

Vase collection "Vesi"/Design: Mikko Laakkonen

Water is, in the truest sense of the word, the source of life and appears to us in ever new forms, without us being consciously aware of it. The Finnish designer Mikko Laakkonen is fascinated by the unobtrusive beauty of this

element and captures its manifold forms in the Rosenthal vase collection "Vesi" (finn: water) in delicate porcelain. Two reliefs characterise the Scandinavian-inspired series: While "Wavelet" imitates the calm flowing waves of water on the outside of the vases, "Droplet" pointedly places large and small drops on the shiny porcelain. The result is a successful mix of look and feel - the vases impress with their beautiful design and feel good.

Rosenthal Watch Collection

A matter of the heart: the Rosenthal Watch Collection expands the extensive product portfolio with fine jewellery whose porcelain dials are handmade at Rosenthal and which, thanks to filigree details, provide very special eye-catchers on the wrist.

Rosenthal Angels

Made of the finest biscuit porcelain, the sweet Rosenthal angels win all hearts. The angels have the Rosenthal headstamp, which guarantees goodness and quality. A high-quality gift packaging rounds off the concept.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of

resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
