Blue Hour: Exclusive designs to capture the magic of the moment

Rosenthal - Francis Carreau Bleu

Historical references and modern elegance come together in the Carreau pattern on the Francis design to create a classically luxurious yet simple-looking table arrangement. The interplay of shaded and unshaded checked areas in royal blue with a delicate gold outline produces a kaleidoscopic colour effect. Subtle white surfaces bring a calming and airy feeling to the design and create an exciting contrast between light and dark, which is wonderfully complemented by the clear lines of the Francis design.

Rosenthal Heritage Collection - Dynasty

The collection “Dynasty” is based on history and imagination. The surrealistic, rich pattern tells the story of any family business from Renaissance to Contemporary in all parts of Europe by using a lot of symbols as the cornucopia, the tree of life and birds in a new language between Art Nouveau and Persian miniatures as well as the open books and the old-fashioned portraits inspired from Italian silhouette „cameo“.

In these motifs, Gianni Cinti revisits and reinterprets a series of elements that typify his personal and artistic path: his connections to places where he lived and to experiences from his personal life and professional experiences - the rigorous composition of Gianfranco Ferrè’s textile prints, for example, and his colour juxtapositions – such as black, Prussian blue, chocolate – typical of men’s fashion.

Rosenthal meets Versace - Medusa Blue

The Medusa décor on the Ikarus form was the first service collection in the Rosenthal meets Versace programme and is already a classic example of Versace’s unmistakable intense décor and colour world. The designs are

distinguished by the intricate ornamental designs, rich colours, shining gold decorations and recurring images of the Versace trademark, the medusa head.

Rosenthal now presents this collection in a new world of colour with Medusa Blue. Royal blue, the colour originally chosen for the Versace Home Collection, now puts the service collection into a new colour mood: fine and extravagant. The familiar elements are maintained alongside the new background colour: warm yellow tones in different nuances, brightened up with exquisite gold accents and set against an elegant black contrast.

Sambonet - Sphera Bar Selection

Sambonet continues its pursuit of shapes and colours that complement lifestyles, living and home decor. The desire to appeal to quality food and wine enthusiasts lies behind the new Bar Selection collection, presented in the exclusive colour of Parfait Amour. A practical wine bucket, a charming wine cooler, an insulated ice bucket, accompanied by spoon and tongs to serve guests. Three types of shaker complete the bar set: the traditional shaker or cobbler, the French or parisienne version and lastly, the Boston shaker, which stands out because of its glass tumbler at the top. Their smooth, streamlined shape assures the perfect mixing of ice when making cocktails.

Developed by Centro Stile Sambonet, the Parfait Amour hues is inspired by the shades of its namesake liqueur, underscoring the refinement of stainless steel and making the most of Sambonet's technological expertise, adding unique notions to the reflecting stainless steel surfaces of each item in the line.

From Porcelain Pioneer to an International Design Company

Rosenthal products stand out for their design, function, quality and constant innovative spirit. Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain "Made in Germany" for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking

investments that have been made.
