Colour Up Your Life! Vibrant porcelain designs for a jovial spirit at home

Colour is life and an endless source of inspiration, but also of creativity. The spring-like designs by Rosenthal, Rosenthal meets Versace and Swarovski x Rosenthal made of high-quality porcelain sparkle with joy and work even better than dopamine.

Rosenthal - Mini vases in colour

Rosenthal's colour round continues: after the success of the anniversary collection "Sixty&Twelve", the most popular vases are available also in miniature format. Twelve shapes in six different colours will make the hearts of design enthusiasts beat faster. Matt porcelain look, silky touch - the minis

lie well in the hand and come in strong colours as soloists or ensembles in any interior.

Rosenthal meets Versace - Medusa Amplified: Short Sets

These short sets pay tribute to Versace's institutional Medusa, reimagined and amplified in fresh pastel colours. The iconic head is imposingly emblazoned in green, blue, pink and orange on Rosenthal plates framed by a classic meander band in gold.

The short sets consist of various plates, cups and a cereal bowl in all four colors, namely Green Coin, Blue Coin, Pink Coin and Orange Coin, and are complemented by a coffee pot, teapot, creamer and sugar bowl as well as three vases.

Rosenthal meets Versace - Medusa Amplified: Gifts

Influenced by Donatella Versace's love of music, especially hip-hop, the Medusa Amplified prints reimagine Medusa as a music icon. The design visualizes what Medusa would feel like as a song, rhythm, melody or beat. The Rosenthal meets Versace collection plays with bold, spring-like colors, contrasts and size variations of the iconic Medusa.

With 30 colours, the extremely elaborate décor, the filigree ornamentation of the Medusa heads and the meander bands around them were a great challenge for the experienced lithographers at Rosenthal in realising the décor designs that require a great deal of knowhow and precision.

Rosenthal meets Versace - Medusa Colours

A Versace Home Collection classic, the Medusa Colours tableware line is designed in a vibrant colour palette. Characterized by a central Medusa motif, the fine porcelain plates are adorned with heritage gold-tone Barocco borders. Available in classic red and blue tones, the collection includes further colorways such as delicate rose, light celeste blue, marine purple and juniper green. The Medusa plates are available in 30 cm wall and 18 cm bread plate iterations.

Swarovski x Rosenthal - Signum

The Swarovski x Rosenthal SIGNUM Collection is a richly detailed representation of brand heritage. Just as the octagon, the Swarovski brand colours of blue, green, yellow, and pink are captured in graphic designs, edged with golden accents (per Rosenthal) – another detail that links to

Swarovski's heritage and craftsmanship in designing and creating jewelry. The stylish swan-engraved, cut-crystal lids are a feature of the collection and add an extra dose of luxury to an already enchanting range, as do the center stamps featuring a golden Swarovski Swan.

From forms to printing to the application of delicate and hand painted décor details, each is a representation of Rosenthal's craftsmanship and expertise. Including tea sets, espresso sets, and full dining services, the complete collection is available in verdant green and is designed to stand alone or be customized with select pieces in the other colourways. Offering the opportunity to curate your own tablescape, individual pieces can be combined to radiate a sense of diverse, contemporary cool.

From Porcelain Pioneer to an International Design Company

Rosenthal products stand out for their design, function, quality and ongoing innovative spirit. Established figures from the worlds of architecture, design and art, but also the smart newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain "Made in Germany" for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.
