- Connectable with other Teufel streaming and Raumfeld speakers for lossless multi-room Streaming
- Control keys directly on the amplifier for on/off, volume & additional freely assignable station keys for radio stations and playlists
- Alarm clock, sleep timer, energy saving function, line-in for CD player or turntable, stand and cables included
- Distinctive Design

High-End Technic

The set consists of two porcelain loudspeakers and an amplifier unit also made of white porcelain with an output of 160 watts. Operation is via the Teufel app or via the touch-sensitive keys on the porcelain amplifier. The loudspeakers are connected to the central unit via two fabric-covered cables, each is three metres long. In the two loudspeakers, high-end coaxial drivers ensure an extremely balanced, reliable playback with precise stage representation. Teufel x Rosenthal is compatible with all Teufel and Raumfeld multi-room streaming speakers. Music is transmitted wirelessly to the system via Bluetooth or Spotify Connect via the Teufel app with the integrated streaming services Tidal, Napster, SoundCloud and TuneIn. In addition, there is a line-in input to which any audio source can be connected.

Made in Germany: Handmade with the highest precision

The production of the porcelain casing of the new Teufel x Rosenthal loudspeakers is characterised by the highest level of craftsmanship and skill. The drop-shaped loudspeaker with integrated bass reflex tube is cast by hand and in one piece from a special hard porcelain casting compound by Rosenthal in Germany. The opening in the loudspeaker, which has its seven perfectly fitting holes for attaching the frame, is already made in the form. Rosenthal made special kiln furniture in the form of a half-shell for the glow and smooth firing. The loudspeaker body is embedded in this to ensure dimensional stability at temperatures of up to 1,400 degrees Celsius. The finished fired porcelain body is then polished, giving it a velvety matt surface and unique appearance.

Price, availability and delivery scope

Teufel x Rosenthal is limited to 500 sets and is now available at www.teufelaudio.com, in all Teufel stores and at selected Rosenthal dealers at a price of 3,990 Euro (RRP). The set consists of two porcelain loudspeakers, the amplifier in the porcelain casing and the necessary connecting cables.

About Teufel Audio

Teufel is one of Germany's largest manufacturers of audio products. Teufel's product range includes Hi-Fi, home cinema and multimedia systems, headphones, Bluetooth and Wi-Fi multi-room speakers featuring the company's own Raumfeld technology. The company first began developing speaker kits in Berlin in 1980 and is now the no. 1 manufacturer of audio

products in Europe.

Since its foundation, the company has been setting trends in areas such as stereo and surround sound, portable speakers and multi-room streaming. At Teufel, excellent sound is always our top priority - and our numerous awards from consumers and trade press are proof of its success

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
