Easter decoration ideas for home and garden: Hutschenreuther collector's editions 2019

Hutschenreuther Collector's Editions Easter 2019

Collectors' pulses will quicken at the sight of porcelain eggs and hearts in 2019, with the customary vivid colours and lovingly created bunny designs. Against a cheerful backdrop, Easter bunnies sell their gorgeously painted Easter eggs at the spring market, tend to their meticulously planted vegetable gardens or enjoy the warm spring sunshine on a group outing. The various Easter scenes are artfully centred within elegant frames of finely drawn flowers and green vines as well as delicate, fresh blue ribbons. As a decorative addition, the collection also includes the lovingly crafted bunny characters as porcelain figurines in two different versions – in simple white or powdery pastel tones, finely painted by hand. The highlight of the collection is the porcelain music box, which is limited to 999 pieces. Springtime arrives as if in a dream with musical accompaniment from "Spring" from "The Four Seasons", probably Antonio Vivaldi's most famous work.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics,

the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
