Easy to share - Stylish Bowls by Rosenthal

With our bowls and deep plates sharing is easier than ever.

Rosenthal Junto

Eating together, having a good time and celebrating life – the new Rosenthal Junto design innovatively and playfully brings together people and their love of good food from all over the world. A subtle fusion of fine porcelain, sumptuous ceramics and warm wood enables all manner of combinations for any cuisine. Our passion for minute details and a natural, handcrafted look is unmistakable, with muted colours and organic shapes. The fine porcelain features a delicate diamond relief that tapers towards the centre and recurs on parts of the top surface and even the underside of the plates and brings to mind modern decoration styles. The edges of the plates and bowls vary in height and lend the design a deliberately individual and asymmetric effect. To provide an appropriate contrast to the fine porcelain, the collection also offers the major pieces as vibrant, earthy stoneware with a special reactive glaze. Numerous small bowls fit the trend for showcasing a wide range of dishes and sharing them with people that we like. Three accessories made from American white oak bring height and variety to the table and help to set the scene perfectly for the many small bowls and plates.

Rosenthal Landscape Shibori

Patricia Urquiola's penchant for contrasts became clear during the development of the "Landscape" form which combines western dining culture with oriental traditions and uses tableware in a spontaneous and varied manner. For the "Shibori" décor Patricia Urquiola combines traditional craftsmanship techniques with modern digital technology. "Shibori", the ancient Asian art of textile finishing, inspired Patricia Urquiola and she

combined these recollections with her foible to create the “Memories” range. The result is a “patchwork”, a raster décor of intense indigo coloured floral and rosette-shaped ornaments which lend the seven different three-dimensional reliefs an additional visual effect. “Shibori” emphasises the characteristic “Landscape” design with this new interpretation of originality and modern technology.

Rosenthal may have one of the longest traditions of Germany’s companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset “made in Germany”, never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
