From Greenery to Seaside Green: trend color green

Rosenthal Interieur Scoop

Scoop is an eye-catcher for every room. Its organic shape reminds you of the original forms of nature and radiates calmness and relaxation on its users. With bended knees or outstretched legs, the comfortable seat snuggles perfectly to each body form and is a stylish design object at the same time.

Hutschenreuther Hearts Green

The heart is the most beautiful symbol of affection. In 2017, the new Hearts collection, with its tender gift items and decorations, offers a diverse range of opportunities for creating emotional and heartfelt moments.

In spring-like pink, pretty green or summery red and blue tones, the decoration and design of the collection follows your heart completely and provides a contemporary interpretation of the current trend for the embroidered and cross-stitched look. In addition to mugs, bowls and plates, the appropriate accessories, such as tealight holders, bowls, containers and napkins, prompt a range of decoration ideas. With three colour schemes and a total of six harmonious designs, featuring a bucolic theme with stags, a feathery look with birds or a more eye-catching theme with affectionate messages, you can combine elements of the collection to suit your own personal tastes and, because each piece is carefully gift-packaged, they make the perfect presents. The range of gifts also includes six-piece breakfast sets for two.

Thomas Sunny Day Seaside Green

Green tones bring to mind long walks through the forest or the sounds of the

ocean and represent vitality, relaxation and hope. This year, Thomas is presenting a stylish new deep shade of green as a new colour for the popular Sunny Day collection. Seaside Green has a simple yet bright and powerful effect on clean shapes. In combination with the Lime, New Red and Yellow shades, the new colour brings a pleasant freshness to our breakfast tables. As usual, the design is dishwasher-safe, impact-resistant, scratch-proof and suitable for microwave use. The trendy colour is also available for the new large Sunny mug. In total, the Sunny Day collection comprises 20 colours.

Thomas My Mini Sunny Day Apple Green

Children love to mimic what adults do. When their parents have something, the little ones want one for themselves as well. Now, with the new, five-piece My Mini Sunny Day children's collection in neon yellow, light pink, apple green and water blue colours, that's not a problem. That is because selected items from the popular Sunny Day tableware collection for adults, which is one of the best-selling collections in Germany, is now available in miniature for children. The items include a large plate and a small plate, a mug, a two-piece cup and a practical shallow cereal bowl. All items are lightweight and designed for little hands, and as usual, they are dishwasher-safe and durable. They are available individually or as a three-piece gift set in a presentation box, including an added bonus.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and

the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
