From Jade to Mint: at the table with Trend Colour Green

Opal, herbal or mint green - the delicate shades of green ensure balance and harmony at the table. Whether on its own or in combination with other soft tones, this trend colour evokes a spring wish.

Rosenthal - new junto colour Opal Green

The delicate tone Opal Green complements the existing Junto porcelain colours Ocean Blue, Pearl Grey and White. It radiates calmness, clarity and vastness. The fine glaze, reminiscent of the colour of cool gemstones, perfectly accentuates the fine diamond relief and expresses presence at table with subtle understatement.

Thomas - Sunny Day Herbal Green

Gentle plant tones also find their way into interiors and transform rooms into green, natural oases. The new Sunny Day colour Herbal Green casually translates this trend into porcelain and, with an energising shade of green, creates a good mood at the table.

Arzberg - Joyn Mint Green

Nature and urbanity, craftsmanship and technology, sensuality and coolness - Mint Green, the new colour in the Arzberg Joyn collection, embodies all of this. Mint Green is also a perfect sparring partner for the other pastel shades in the Joyn collection and also looks great with metallics such as gold, silver and copper.

Sambonet - Madame

From the ambience and glamour of 19th century French salons, Madame is born - a fascinating collection of serving bowls and platters with the signature of Sambonet. The colours Jade and Malachite are perfect in combination with shiny surfaces create a stylish flair at table.
