Gifts of Splendor: Exclusive Christmas gifts by Rosenthal meets Versace

Rosenthal meets Versace - Medusa Amplified: Gifts

Influenced by Donatella Versace's love of music, especially hip-hop, the Medusa Amplified prints reimagine Medusa as a music icon. The design visualizes what Medusa would feel like as a song, rhythm, melody or beat. The Rosenthal meets Versace collection plays with bold, spring-like colors, contrasts and size variations of the iconic Medusa.

With 30 colors, the extremely elaborate décor, the filigree ornamentation of the Medusa heads and the meander bands around them were a great challenge for the experienced lithographers at Rosenthal in realising the décor designs that require a great deal of knowhow and precision. The Medusa Amplified Gift collection contains three vases in different sizes, a place plate, an ash tray, a small platter and a small plate as well as the popular scented candle.

Rosenthal meets Versace - Medusa Amplified: Golden Coin

Christmas season is glorious with the Medusa Amplified Golden Coin. Rosenthal meets Versace's new Christmas collection emphasizes Versace's iconic Medusa medallion logo in classy red and gold. The fine porcelain collection of plates, cups, dessert étagères and tree ornaments encompasses a joyful atmosphere at the festive table and in every home.

As each year a collector's plate in a limited edition is dedicated to the Christmas collection. This year it says: „Joy awaits those who dare to dream of

a life in gold.”

Rosenthal meets Versace - Golden Medusa

Let it snow! This winter, Rosenthal meets Versace introduces a bigger glass snow globe (16,8 cm) to accompany the smaller version (12 cm). Finished in red and gold, both can be combined with the Medusa Amplified Golden Coin collection or in noble gold decor with the "Golden Medusa" series.

Rosenthal meets Versace - La Medusa & La Medusa Studded Vases

Rosenthal meets Versace's latest vase collection is modelled on Versace's successful "La Medusa" handbag adorned with a Medusa plaque – the same décor that was discovered on the doors of the brand's first headquarters in Milan. A special detail is the curved offset of the top with the iconic Medusa and fine decorative stitching as on the leather handbag. The eye-catching La Medusa Studded Vases beguile with ton-sur-ton macro studs and the extraordinary round shape. The vases made of coloured porcelain are limited until 31.12.2022 and available in two sizes in pink and green.

Rosenthal meets Versace - Alphabet Trays

The Alphabet collection spells out Versace's heritage with the Spring Summer 1992 archival print featuring Barocco lettering. The fine porcelain collection of Monogram trays is an adorable gift item that adds sophisticated style to your home - from A to Z.

Rosenthal meets Versace - Frames

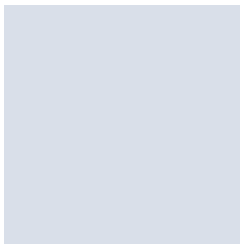

A limited collection of gold and silver picture frames enriches the variety of the gift selection. Clear geometric shapes are adorned with the iconic motifs of Versace, such as the Greek key and the Medusa Head.

From Porcelain Pioneer to an International Design Company

Rosenthal products stand out for their design, function, quality and constant innovative spirit. Established figures from the worlds of architecture, design

and art, but also the hottest newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain "Made in Germany" for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.
