Happy Meal with Sunny Day by Thomas for kids

Thomas My Mini Sunny Day

Children love to mimic what adults do. When their parents have something, the little ones want one for themselves as well. Now, with the new, five-piece My Mini Sunny Day children's collection in neon yellow, light pink, apple green and water blue colours, that's not a problem. That is because selected items from the popular Sunny Day tableware collection for adults, which is one of the best-selling collections in Germany, is now available in miniature for children. The items include a large plate and a small plate, a mug, a two-piece cup and a practical shallow cereal bowl. All items are lightweight and designed for little hands, and as usual, they are dishwasher-safe and durable. They are available individually or as a three-piece gift set in a presentation box, including an added bonus.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also

the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
