Holiday feeling: summer shines in the brightest colours

Luscious yellow in perfect combination with vibrant blue – the trend colours of the summer harmonize excellent together

ONO friends/Design: Kilian Schindler

The two strong base colours, blue and yellow, complement each other perfectly. A simple and very striking line pattern, which superimposes white on blue or blue on white in an irregular and selective way, completes the bold blue tone. The handcrafted charm and different sequences of strokes on the cups and mugs create a thoroughly individual look. The collection pieces in soft yellow, which always come with a full-surface design and bring a pleasant glow to the table, provide a fitting contrast. The design leaves room for individuality and originality, and enables all manner of combinations ranging from timeless, stripped-back white and blue combinations featuring a small number of individual pieces right through to spirited, colour-popping yellow and blue arrangements.

Sunny Day Cool Ice

The new Cool Ice porcelain collection is reminiscent of gloriously carefree childhood days. The handy ice-cream bowls with matching porcelain ice-cream spoons – with their trendy spotty design and range of six refreshing colours (light pink, new red, yellow, grey, orange and Nordic blue) – enable you to enjoy this summery treat experience over and over again. The practical bowls can also be used for all kinds of desserts, including crème brûlée.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
