Inspired by the grey of the mountains: Rosenthal Mesh Mountain

Powerful and profound: Rosenthal Mesh Mountain

Inspired by the expressive grey of the mountains, Rosenthal continues to expand the colour palette of the bestseller collection Mesh. In addition to Forest, Aqua, Walnut and Cream, Mountain is now also available in a powerful and timeless grey nuance. The warm tone creates a cozy, modern mood - whether at a business lunch, a casual breakfast with the family or in haute cuisine. Rosenthal applies all colour variations to the porcelain with a special high-temperature glaze at 1,400 degrees. Particularly resistant and colour-intensive, the glazes emphasize the individual handcrafted character of the shapes and make the relief of mesh appear more intense. A high-quality drinking glass completes the collection. The mouth-blown glass tumbler picks up the typical line structure of the porcelain parts through special relief work in the bottom. Either clear or in the colour variants Aqua and Mountain, it completes the staging on the laid table - whether in an all-over Mesh look or individually with any other collection.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
