Kicking off holiday season on the wrist: watches Sun Ray and Sunset from Rosenthal

Rosenthal wristwatch collection

The Rosenthal wristwatch collection combines contemporary elegance, precise watch-making and the finest materials with an elaborate, handcrafted face made from the best porcelain to create a unique gift idea. All watches are assembled in Germany by masters of their craft. Rosenthal puts a great deal of attention to detail into manufacturing the watch faces, which are just 1.5 millimetres thick, at its site in Selb, located in the German region of Upper Franconia. They are decorated and painted by hand.

Sunset model

The Sunset watch, with its radial face finished with either real gold or real silver, ion-plated stainless steel casing and high-quality calfskin strap, proves that simple can also be extraordinary. Available in stainless steel and gold.

Sun Ray model

With modern straight lines, decorated by hand and featuring a high-quality calfskin strap, this model is a classic for life. Available in stainless steel or gold.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the

restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset “made in Germany”, never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
