Light It Up! Graceful mood setters for more comfort at home

Rosenthal - Nightingale

The Nightingale table lamp, designed by Dante – Goods and Bads in collaboration with Rosenthal, quite literally turns the structure and design of a lamp completely on its head: The otherwise normal lampshade of the design piece is rotated 90 degrees, thereby completely redefining the interaction between the light fitting and reflector. The delicate porcelain body is initially reminiscent of an antique lantern, but its thoroughly modern aesthetics shine through thanks to the clear-cut design and soft beam of LED light.

Rosenthal - La Chute and Squall

Fascinated by materials' plasticity and limits of deformability, French designer Cédric Ragot designed vibrant vase series for Rosenthal. Whereas the design "La Chute" takes up the big questions of creation and finiteness, his object "Squall" refers to the already successful vase "Fast" created by Ragot in 2007 and preserves a movement in all its dynamics in porcelain.

Rosenthal - Triu and Seven Contour

Made of three U-shaped slender arms, Triu vases at first glance look like intertwined metal tubes. In the glittering "Seven" vases, glass tubes arranged in opposite directions create also a metallic-looking vase object with a very unique design language. The individual glass cylinders made of robust borosilicate with noble titanization set the stage for creative and individual flower arrangements.

Arzberg - Tric Sunshine & Tric Moonlight Collections

The Tric Sunshine and Tric Moonlight collections bring glamour into everyday life. The popular gift collection Tric Sunshine in shining gold now gets a stylish combination partner in silver and is extended by three items. While the golden version looks noble and warm, the new platinum-titanised Tric Moonlight exudes chic coolness and independence. From now on, both versions will also come with a gourmet bowl and bowls in two different sizes. Created for the daily great performance, the Tric Sunshine and Tric Moonlight articles conjure up unique accents on the table.

Sambonet - Gio Ponti

The charming centrepiece gives rise to a capsule collection dedicated to the Gio Ponti design. Sophisticated design objects that, in addition to perfect lines, feature trending colours to change the look of a table setting or simply to lend a character to any type of location. The project of the Centrepiece was unpublished up to 2013 – when Sambonet finally brought the project to light – it was immediately awarded the most prestigious international Design recognitions, soon becoming one of the most representative creations that the Master has dedicated to the table.

From Porcelain Pioneer to an International Design Company

Rosenthal products stand out for their design, function, quality and ongoing innovative spirit. Established figures from the worlds of architecture, design and art, but also the smart newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain "Made in Germany" for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.
