## Get cosy: the best Feel-Good-Pieces for your home from Rosenthal

### Tea set "Medallion" by Thomas

Characteristic of "Medaillon" is the clear, geometric shape supplemented by a rigorous use orientation. The distinctive design language, with its generous knobs contrasts with the intricate, almost delicate implementation and makes "Medaillon" a distinctive product.

### Rosenthal "Phi" table and scented lights

Freeze, Spindrift, City, Manhattan, Snow - Rosenthal has translated five avant-garde structures by the English designer Cairn Young into the extraordinary light collection PHI. High-quality, wireless table lamps with LED lighting and scented lights filled with fine wax, conjure up unique lighting experiences in every ambiance.

### Rosenthal "Falda"

The simple, bulbous vase made from biscuit porcelain with its velvety surface and pleated, topquality collar with a golden titanium coating is reminiscent of Art Deco objects. The collar surrounds and embellishes the floral arrangement in an unusual way. However, even without floral decoration, Falda is an object with plenty of style and character.

---

Rosenthal may have one of the longest traditions of Germany's companies,

but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset “made in Germany”, never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
