Multifunctional and clever - Discover ONO by Thomas with new video clips

Two new ONO by Thomas video clips show that this collection is anything but ordinary. Thanks to their grooved structure, the plate 15 cm can be used as a saucer for any sized cup and also serve as practical covers for the different-sized bowls or simply as plates for antipasti. The food presenter of ONO serves as a cake stand and – when turned upside down – as a stylish fruit basket.

The concept and harmonious design are the work of German designer Kilian Schindler. Its well-thought-out details make it an impressive piece both as part of a complete service and when combined with other highly unique individual items. A natural combination of materials with elements of wood, silicone, glass and wire mesh accentuates the modern look and turns the design into a versatile all-rounder.

Discover now also the new ONO pieces focusing on brunch!

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
