My heart belongs to you: gift ideas for lovers

Our gift ideas for Valentine's Day:

Wristwatch Cherry Blossom from the Rosenthal Watch Collection

Fine cherry blossom, hand-painted in shades of pink, graces the airy face of the Cherry Blossom model. With straps made from high-quality calfskin and a Swiss quartz movement, this watch is sure to please more than just lovers of floral designs.

Mini Vase Squall and Geode by Rosenthal

Small but mighty: the successful Rosenthal mini vases collection is now being expanded by six new white porcelain beauties. The miniature editions of the vases Falda, Squall, Ode, Geode, Fondale and Hot Spots complement the popular collector's items. Whether individually with small floral arrangements or in a group - these nine to 12 centimeter large design classics embellish the blackboard, showcase or mantelpiece.

Maria White and Maria Pink Rose by Rosenthal

Some love stories are so beautiful that they are hard to believe. Like the one between Philipp Rosenthal and his wife Maria. It so happens that the privy councillor was so infatuated with her that he quickly named a porcelain set after her – without knowing that it would one day become a best-seller, selling millions.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
