Natural table styling: Table culture inspired by nature

Trend Colour – «Moss Green»

With "Moss Green" Thomas continues the success of Trend Colour in 2021. The soft shade of green is reminding us of a relaxing walk in Nordic forests, the quiet appearance on soft moss soil, surrounded by fresh and harsh forest air.

For a striking appearance with a trendy handmade character, the articles are individually dipped in coloured glaze and then burned. Depending on the thickness of the glaze, this creates individual and varied shading effects, which are particularly highlighted by the fine grooved structure typical of Trend.

Thomas Nature – «Coral»

In addition to the three existing soft colours "Sand", "Water" and "Leaf", the new colour "Coral" brings liveliness to the table. The bright yet subtle shade of red attracts all eyes and still harmonises well with the other colours of the collection. "Coral" brings a casual look to the table by using the colour palette found in the nature.

The rustic yet high-quality stoneware material gives the plates and cups of the Thomas Nature collection an authentic character in a trendy handmade feel. Each item in the collection is hand-glazed, providing it its own individual appearance.
