## Peach Fuzz: porcelain creations in the trendy Pantone colour

**"Peach Fuzz" is the new Pantone trend colour 2024! Delicate peach nuances can also be found in Rosenthal's current collections. We have put together the most beautiful items.**

In December, it was that time again: interior lovers, fashionistas and aesthetes from all over the world were eagerly awaiting the announcement of this year's Pantone colour. *Peach Fuzz* is the name of the latest trend shade. The soft peach nuance, a mixture of light orange and pink, has a velvety soft, warm and calming effect and at the same time provides an

elegant glow-up for any interior.

The current Rosenthal collections also feature soft, sensual peach tones - from Coral to Soft Red.

Rosenthal has just launched its Mini Vases + in unusual shapes in six new colours, including the red-orange Coral. The "Node", the little brother of the optical knot by designer Martin Hirth, comes in a 10 cm small version in the fresh peach colour. The Florinda vase, designed by Maarten Vrolijk in the 1990s, is reminiscent of elements of pop art with its playful shape. This year, it has also been reissued in a delicate coral colour.

The cheerful Sunny Day collection from Thomas comes in the new year in the colour "Soft Red", a mixture of fruity apricot and lively Viva Magenta.

### **From Porcelain Pioneer to an International Design Company**

Rosenthal products stand out for their design, function, quality and ongoing innovative spirit. Established figures from the worlds of architecture, design and art, but also the smart newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain "Made in Germany" for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.
