Rosenthal receives three German Design Awards 2018

Three awards in each of the last three years – this simple formula sums up Rosenthal GmbH's performance when it comes to the coveted German Design Award. This year, the company is again set to receive three of the renowned awards for outstanding product design. In the "Tabletop" category, Rosenthal's Fondale vase has been earmarked for a gold award and the new Junto design for a winner's award. The first WLAN loudspeaker system made of porcelain, Teufel x Rosenthal, which was co-designed with the audio technology specialist Teufel, has also earned the company a special mention in the "Entertainment" category.

The German Design Award, which started in 2012, is one of the most renowned design competitions in the world and is awarded by the German Design Council. The jury scrutinised a total of more than 5,000 submissions.

A cylindrical body and tapered collar, with a subtly shimmering surface that brings out the individual flowers, make the **Fondale** vase the perfect stage for creative flower arrangements.

Eating together, having a good time and celebrating life – the new Rosenthal **Junto** design innovatively and playfully brings together people and their love of good food from all over the world. A subtle fusion of fine porcelain, sumptuous ceramics and warm wood enables all manner of combinations for any cuisine.

The finest sound quality from Teufel meets the finest porcelain from Rosenthal – the world's first streaming speaker made from porcelain **Teufel x Rosenthal** combines technical expertise, innovative materials and a unique

design. The porcelain bodies for the loudspeakers are hand-made at Rosenthal in Selb.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 135 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made. New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
