Snow White: Rosenthal creates a winter's tale for your home

As beautiful as Snow White are our porcelain objects, which in pure white fit perfectly into the cold winter season:

Made of fine porcelain, the **collections "Suomi" by the Finn Timo Sarpaneva and "Landscape" by the Spanish designer Patricia Urquiola** evoke associations with the glittering fresh snow outside.

Complex, spirally twisted geometric patterns cover the white porcelain bodies of the "Phi" vases by Cairn Young, transforming them into extravagant snow sculptures that only nature can create so filigree. **Cloud-like "Skum" vases** by the architectural firm BIG in matt and glossy white are joined together like soap bubbles made of porcelain spheres, forming a fairytale object that will cast a winter spell over any interior.

With a trendy do-it-yourself look, **the cute owl figurine "Snow White" immediately catches the eye** - in three different sizes and as if knitted by hand, it looks like a cute snowball and radiates winter happiness.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded over 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for

aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
