Spring moments with floral decorations by Regula Stüdli

Meadows, trees and shrubs in full bloom awaken springtime feelings and bring cheerful summer vibes. The Swiss textile designer Regula Stüdli is inspired by herbs, meadow blooms and alpine flowers all year round and realises floral designs on the decorations of the Rosenthal bone china line Brillance. Rosenthal has now launched a new "Tea for 2" set and mugs with floral designs - for special feel-good moments, celebrated alone or enjoyed in company.

With the floral décor "Grand Air", Rosenthal and Regula Stüdli bring the purity

of nature to the table. The textile designer combines fragrant herbs such as rosemary, thyme and lavender, bright meadow flowers such as nasturtium and marigold with wild flowers such as cornflower, pansies and daisies.

The designs bring the special experience of nature not only on plates, cups and bowls in fine bone china. Now the floral decoration of delicate flowers and herbs also adorns a new small teapot and mugs. Tea enjoyment can now be celebrated to the full, whether after a yoga session, as a relaxing drink in the office or when chatting with friends.

Mugs in three new floral designs and in the shades purple, jaune and bleue are also new additions to the collection and bring the colourful splendour of a flower meadow to the coffee table at home.
