## Super Greens! Fit and healthy lifestyle with Thomas

### Thomas Loft Colour: Moss Green

A timeless and beautiful design form that looks good every day and in all situations - this is the secret of Loft's success. The Scandinavian-inspired glaze colour "Moss Green" brings a fresh naturalness to the modern shape and can be perfectly combined with Loft White as well as with the variants "Ice Blue", "Moon Grey" and "Night Blue".

The series, developed by the British design duo Queensberry Hunt, has already been successful on the market for 20 years. All items are dipped in coloured glaze and then being fired. Depending on the thickness of the glaze,

a variety of shading effects are possible, which are particularly accentuated by the fine grooved structure typical of Loft.

#### **Thomas Nature: Leaf**

“Think pink” is yesterday’s news – “think green” is the new credo. The Thomas Nature collection’s Leaf tone adds botanical touches and recalls fresh sage leaves. The casual green tone with shades of grey is constantly in balance between modesty and prominence and emanates calm.

Nature offers countless opportunities to escape your daily routine and restore your energy. The six-part special collection Thomas Nature Leaf is focused on functionality and naturalness, brought together by an earthy material: stoneware. A line structure that is broader in the centre and dissolves outwards gives the plates and cups an authentic character and a handmade look.

#### **Thomas Sunny Day: Avocado Green**

The Sunny Day collection is keen on green. With the colour Avocado Green we celebrate the health trend and raise the superfood to the Olympus of table culture. You will certainly not get enough of this calm colour and by mixing it with other contrasting shades from the Sunny Day collection, Avocado Green is at its best. As usual, the decor is dishwasher and microwave safe.

---

### **From Porcelain Pioneer to an International Design Company**

Rosenthal products stand out for their design, function, quality and ongoing innovative spirit. Established figures from the worlds of architecture, design and art, but also the smart newcomers and talents design avant-garde dining collections, sophisticated interiors and exclusive gifts. With exceptional craftsmanship, Rosenthal has been producing porcelain “Made in Germany” for more than 140 years. At the same time, the two porcelain factories in Selb and Speichersdorf are among the most modern production facilities in the porcelain industry worldwide and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.
