Time to Shine: Gold shimmering accents

Rosenthal - Triu/design: Jan Padrnos

The Triu vases, which are made up of three slimline, U-shaped arms, seem at first glance like intertwined metal tubes. But in reality, the skilfully connected objects, which are available in gold, silver, copper and clear, make a dazzling impact thanks to robust borosilicate and a delicate titanium coating.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the “Thomas am Kulm” porcelain factory in Speichersdorf, which offer some of the porcelain industry’s most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward- looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
