Trend shows its colours: three new shades for the popular Thomas collection

Classic Blue - the Pantone colour of the year 2020 - stands for the infinite vastness of the evening sky. Thomas was also inspired by the beauty of nature for the new edition of the popular Trend collection.

Thomas Trend Colour

In more than 35 years the Thomas Trend collection from the London design forge "Queensberry Hunt" has conquered countless households, cook-shops, offices and bistros. With its timeless and functional design, Trend white is regarded worldwide as one of the most popular dinnerware for everyday use. The new Thomas collection sets coloured accents - inspired by the nature of the North.

Thomas Trend **Ice Blue** lets the finely ribbed structure of plates, cups and bowls shine in a powerful turquoise blue of the Arctic. **Night Blue** casually rings in the "blue hour" within your own four walls and with **Moon Grey** the day ends warm and cosy in the moonlight. The exclusively developed colour glazes give the collection a fresh and distinctive look that integrates perfectly into your own home - whether in Scandi chic or Hygge style.

All articles of the Thomas Trend Colour collection are made of natural raw materials and are "Made in Germany". Every single item is dipped into a coloured glaze and subsequently burnt. The result is therefore always individual. Depending on the amount of glaze applied, the white porcelain shines sometimes more times less through. This creates extraordinary shading effects that highlight the typical ribbed structure of Trend.

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
