With green colours to inner balance: soft plant tones in the interior

Soft plant tones are also finding their way indoors, transforming interiors into green, natural oases:

New: Thomas Sunny Day Herbal Green

Medicinal plants such as eucalyptus, sage and peppermint provide relaxation, beneficial calm and inner balance, and no longer just in herb gardens and hot drinks. Soft plant tones are also finding their way indoors, transforming interiors into green, natural oases. The new Sunny Day colour Herbal Green effortlessly translates this trend into porcelain and ensures a good mood at the table with an invigorating shade of green. The natural yet prominent tone reflects the vitality of the plant world and can be combined with Neon Yellow and Greige for glowing freshness, in colour-blocking with Orange and Light Pink to be at the forefront of fashion or with the colours Yellow and Nordic Blue for cosy warmth. This gives the table an atmosphere that can adapt both to the seasons and to the mood: from calm to lively, from cosy to energised. As usual, the design is dishwasher-safe, impact-resistant, scratch-proof and suitable for microwave use.

Rosenthal Furniture Collection Bolbo chair in Fiord

The Bolbo chair really packs a punch. Its striking curvature and variable concept make it a real all-rounder in dining rooms both small and large. It is available not only with or without armrests, but also with just one armrest. This allows two chairs to be either positioned tête-à-tête or pushed together to create a little bench-style seat.

Pomd'or x Rosenthal: Equilibrium Accessories in celadon green

The Spanish POMD'OR brand, which specialises in accessories and designs for bathroom furniture, and German porcelain manufacturer Rosenthal have created an elegant new bathroom collection. "Equilibrium" has been crafted by Dutch designer Edward van Vliet and brings natural materials such as porcelain, marble, wood and glass together in perfect harmony.

The collection includes a range of accessories made from porcelain in delicate white and soft celadon green, which can be adorned with decorative designs (gradient and netting) or reliefs (grooved and hexagonal). The porcelain is combined with three different metallic coatings (chrome, gold and bronze).

Rosenthal may have one of the longest traditions of Germany's companies, but is also one of the most modern. Just as we did when we were originally founded 140 years ago, Rosenthal develops products equally for discerning end customers and for exacting professional clients from the restaurant and hotel trade. Our products stand out with exceptional form, function, quality and craftsmanship and represent a cultural asset "made in Germany", never ceasing to combine innovation and creativity. With its award-winning porcelain design, trendy lifestyle collections and modern, elegant classics, the Rosenthal brand raises the bar time and again for aesthetics and individuality.

Established figures from the worlds of architecture, design and art, but also the hottest newcomers and talents design avant-garde dinner table collections, foster a joy of giving and create sophisticated furnishings. The collections are manufactured in the Rosenthal porcelain factory in Selb and the "Thomas am Kulm" porcelain factory in Speichersdorf, which offer some of the porcelain industry's most advanced production facilities anywhere in the world and deliver sustainable manufacturing with careful use of resources thanks to the forward-looking investments that have been made.

New interior collections and accessories enrich the Rosenthal world by adding designer objects that go far beyond the limits of a conventional table setting and round off the huge product variety.
